

A couple of topics carried over from previous meetings.

Mike Rude introduced the suggestion of considering a safety check possibly done by local fire department personnel. It might be best that if we decide to follow through on this project that we should divide up the membership into more feasible portions. Copies of a suggestive line up will be included in this issue. The list is very flexible and members can attend a session in another if wanted. It's probably not a good idea to talk about this in more detail at an upcoming meeting.

Another topic brought up was the possibility of a CCW "PRE CHRISTMAS SALE". The reaction was very weak so again, we can bring it up and if response is same, we'll kill it.

Barry Lundgren, Mike Magrill and George Paes belong to the Santa Ynez Woodworkers Guild and will participate in a show in Solvang. This show at the Wildling Museum centers its theme around a learning curve. As mentioned at the last meeting a small display will feature CCW'S response to the Beads of Courage campaign. Some bowls that will be available will be on display with signs noting the work with Cottage Hospital in Santa Barbara and with Mission Hope Cancer center in Santa Maria.

## Show and Tell

Show and tell was very weak, I apologize right away for the poor photography, seems my finger blocks the flash and some times it's just a poor job, however, lets go

Tom Bullock a beautiful bowl turned from Cypress . Now that Tom is fully retired we can expect him to be a major contributor to Show & Tell

Mike Rude was proud to show these bowls of Black locust that he won in a previous raffle.

Doug Green seems to have a great source of wood, shown here is a beautiful display in grain in a bowl of Myrtle

Blaine Harris showed and gave us a good idea for random gifts in branches from a Birch Tree turned and bored to make bud vases

Larry Truesdale offered for consideration bowls turned from "SCRAPS" that's what he said.

Ernie Miller took a piece of African Black wood out of his inventory and turned a handle for one of his chisels

Rick Hasseman back in good shape to being able to go back into his shop..  
Shown here is a Walnut bowl loaded with fine ornaments and another (not shown) in Bubinga

There were a few more presentations but not captured in fine photography, sorry.

CCW Welcomes to the fold Dave Bones, Dave is taking advantage of the CCW offer of a lathe until that time he feels comfortable and go on to bigger things

We haven't had a Sawdust session in a while, search your brains and give us some suggestions and better still a place to explore those ideas.

Next Meeting will be on Saturday July 9<sup>th</sup> 9:00AM, Odd Fellows Hall on Dana St in San Luis Obispo.

Don't forget that safety is needed in your shop and have a safe July 4th
